GENERAL GUIDELINES

- List all your sources at the end of your paper on a separate page with the centered title, Reference List. All entries should be double-spaced. All lines following the first must be indented five spaces.
- Use italics rather than underlining.
- Use Times New Roman font 12 pt size for all papers in APA style.
- Only include sources mentioned in your paper.
- List each item in alphabetical order by the author’s last name regardless of format.
- If there is no author, alphabetize by the first word of the title.
- Include appropriate in-text references for all material from outside sources.

If you have any questions, speak with a reference librarian or consult the Publication Manual of the American Psychological Association available at the Reference Desk. Additional help is available at:
